Unit 1: Finding your way around the dictionary

What is an entry?

A dictionary entry tells you what a word means and how to use it. At the beginning of each entry in this dictionary is the main form of the word, in colour. This is the headword. A headword can be one word (light) or it can be more than one word (light bulb).

This guide will help you to use the entries in the dictionary. It will show you how to look for the entry you want and what information you will find in the entry.

Alphabetical order

The English alphabet has 26 letters. The order of the letters is:

Small letters: a b c d e f g h i j k l m n o p q r s t u v w x y z

The entries in the dictionary are in alphabetical order. We ignore spaces and punctuation marks when putting words in alphabetical order. For example, fairy tale is found between the words fairy and faith.

If you are trying to decide the alphabetical order of two words with the same first letter, look at the second letter. Go through each letter of the word from left to right until you find a letter that is different. The first letter that is different shows you what order the words should be in.

To help you remember the alphabetical order of English, the alphabet is shown down the side of each page of the dictionary.

1 Put these words in alphabetical order.
   table book light pencil chair sock yacht hair
   1 ____________  2 ____________ 3 ____________ 4 ____________
   5 ____________  6 ____________ 7 ____________ 8 ____________

2 Put these words in alphabetical order.
   talk take thank teacher tall today Thursday tongue
   1 ____________  2 ____________ 3 ____________ 4 ____________
   5 ____________  6 ____________ 7 ____________ 8 ____________

Finding an entry

When you open the dictionary, you will see a word at the top of each page. These help you to find the page that the word you are looking for is on. The word at the top of the left page is the first entry on that page, and the word at the top of the right page is the last entry on that page. If the word you are looking for comes in alphabetical order between these two words, it will be on the two pages you are looking at.
3 Draw a line from the headword to the words that it will appear between.

1 good    port...   ...praise
2 police  we’d...   ...which
3 early   goal...   ...grandchild
4 whale   point...   ...population
5 poster  DVD...   ...easy

4 Which of these words will you find on the pages that start with mouse and end with must? Draw a line under the words that will be on these two pages.

mouth    more    much    mood    my    mug    move

Mr        mother   mustn’t    music    Ms

Variants

Sometimes words can be spelled in more than one way, or another word can be used with exactly the same meaning. These different spellings or different words are shown in brackets at the beginning of the entries:

<table>
<thead>
<tr>
<th>adviser</th>
<th>everyone</th>
</tr>
</thead>
<tbody>
<tr>
<td>/adˈvarzə/ noun (also advisor)</td>
<td>/ˈevriwʌn/ pronoun (also everybody)</td>
</tr>
<tr>
<td>someone whose job is to give advice about a subject: a financial adviser</td>
<td>every person: I’ve received a reply from everyone now.  • Everyone agreed with the decision.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>bye</th>
<th>eyelash</th>

<tbody>
<tr>
<td>/baɪ/ exclamation (also bye-bye)</td>
<td>/ˈeɪləʃ/ noun (also lash)</td>
</tr>
<tr>
<td>goodbye: Bye, see you tomorrow.</td>
<td>one of the short hairs that grow from the edge of your eyelids: false eyelashes</td>
</tr>
</tbody>
</table>
Unit 2: Information about the word

Irregular forms

Some forms of nouns, verbs, and adjectives have special forms or spellings. These are irregular forms. Irregular forms are shown at the beginning of the entry. Broke and broken are irregular forms of break, and better and best are irregular forms of good.

Irregular forms of verbs

Past tenses, past participles, and present participles (‘-ing’ forms) that are not regular are shown at the entry for the verb. There is also a list of irregular verbs at the back of the book that shows the infinitive form of the verb, its past tense, and the past participle.

Irregular forms have their own entries, which tell you to go to the main form of the word:

went /went/ past tense of go

1 Write the past tense and past participle of these verbs.

<table>
<thead>
<tr>
<th></th>
<th>past tense</th>
<th>past participle</th>
</tr>

<tbody>
<tr>
<td>1</td>
<td>break</td>

<td>get</td>
<td></td>
</tr>
<tr>
<td>4</td>
<td>swim</td>
<td></td>
</tr>
<tr>
<td>5</td>
<td>take</td>
<td></td>
</tr>
</tbody>
</table>

Irregular forms of nouns

To make nouns plural, you normally add –s, for example book, books. Some nouns do not have this regular plural form. If a plural form of a noun is not regular, it is shown in brackets after the headword:

shelf /ʃelf/ noun (plural shelves /ʃelvz/) a board used to put things on, often attached to a wall: kitchen shelves

2 Look up these nouns. Write down their plural form.

<table>
<thead>
<tr>
<th>1</th>

<tr>
<td>7</td>
<td>sheep</td>

</tr>
</tbody>
</table>
3 Look up these nouns. Put a line under the correct plural form.

1 city cities cys cityes
2 life lifes lfs lives
3 fireman firemans firemen firemens
4 tomato tomatoes tomatos tomates

Irregular forms of adjectives

Adjectives can have different forms. The comparative form is used to show that someone or something has more of a particular quality than someone or something else. To make the regular comparative form, you either add –er to the end of the adjective or use the word more before it.

The superlative form of adjectives is used to show that someone or something has more of a particular quality than anyone or anything else. To make the regular superlative form, you either add –est to the end of the adjective, or use the word most before it.

Comparative and superlative forms that are not regular are shown at the beginning of the entry:

far2 /far/ adj (farther or further, farthest or furthest)
describing the part of something that is most distant from you: His office is at the far end of the corridor.

4 Look up these words. Write their comparative and superlative forms.

<table>
<thead>
<tr>
<th></th>
<th>comparative</th>
<th>superlative</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>bad</td>
<td></td>
</tr>
<tr>
<td>2</td>
<td>heavy</td>

<td>lazy</td>
<td></td>
</tr>
<tr>
<td>4</td>
<td>good</td>
<td></td>
</tr>
<tr>
<td>5</td>
<td>well</td>
<td></td>
</tr>
</tbody>
</table>

Pronunciations

Pronunciations are shown after the headword. For example, the pronunciation for the word dog is shown like this: /dɒg/. The pronunciations are written using the symbols of the International Phonetic Alphabet (IPA). The list on the inside front cover of the dictionary tells you how to read the pronunciation symbols. The most difficult symbols are also shown at the bottom of each page, with an example of a word that contains that sound.

The symbols ′ and ″ show you which part of the word to say strongly. The high symbol ′ shows you the part of the word that you should say in the strongest voice. The low symbol ″ shows you the part of the word that you should say in a strong voice, but not as strong as ′.

The dictionary entries do not show pronunciation for abbreviations used only in writing, such as cm, lb, mm.
5 Look up these words. Draw a line from the word to its pronunciation.

1 fish /ˈaɪlənd/
2 dictionary /ˈdɪkʃənri/
3 island /ˈsanl̩d/
4 knee /niː/  
5 through /θruː/  
6 sign /ˈsɪgn/  

6 Put a line under the part of the word that has the strongest stress.

1 doctor
2 incorrect
3 award
4 question
5 record (noun)
6 record (verb)

English Profile levels

In the dictionary entries you will see the numbers and letters A1, A2, B1. These are English Profile levels, and they show you the words or meanings of words that you need to know at different levels. A1 words are the most basic words and should be learned first, followed by A2 words, then B1 words. You can use these levels to decide what are the important words that you need to study. In the entry below you can see that camera is an A1 word.

camera /ˈkæmərə/ noun
3 a piece of equipment used to take photographs

7 Look up these words and write down the English Profile level.

1 bread
2 home (noun)
3 home (adverb)
4 lucky
5 fast (adjective)
6 fast (adverb)
### Unit 3: Parts of speech

A part of speech is one of the grammatical groups into which words are divided, such as noun, verb, and adjective. It shows what job each word does in a sentence. In the dictionary each word has a part of speech label which is shown at the beginning of the entry, after the pronunciation. The names of the parts of speech used in this dictionary are: *noun, verb, auxiliary verb, adjective, adverb, pronoun, preposition, conjunction, quantifier,* and *exclamation.* Phrasal verbs also have a part of speech label.

When two words have the same spelling but different parts of speech, they have separate entries. For example, *bite¹* and *bite²* have the same spelling but are separate because *bite¹* is a verb and *bite²* is a noun.

1. **Look up these words. How many parts of speech do they have?**
   
<p>| | |</p>
<table>
<thead>
<tr>

<tbody>
<tr>

<tr>
<td>4 hot</td>
<td></td>
</tr>
<tr>
<td>5 tax</td>

</tr>
<tr>

</tbody>
</table>

2. **What part of speech are these words? Look them up in the dictionary to find out.**

</tr>
<tr>
<td>4 frighten</td>
<td></td>
</tr>
<tr>
<td>5 together</td>

</tr>
<tr>
<td>6 within</td>

</tr>
</tbody>
</table>

### Noun

A noun is a word that refers to a person, object, place, event, substance, idea, feeling, or quality. For example, the words *teacher, book,* and *beauty* are nouns.

3. **Look up these words. Draw a line under the words that are nouns.**
   
   hat happy actor between luck chair read awful compare house

Some nouns have only a plural form and cannot be used with a or an. These nouns are called *plural nouns* and are always used with plural verbs. Nouns such as *scissors* and *glasses* are plural nouns.

<table>
<thead>
<tr>
<th>scissors</th>
<th>plural noun</th>
</tr>
</thead>
<tbody>
<tr>
<td>a tool for cutting paper, hair, etc. that you hold in your hand and that has two blades: a pair of scissors</td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>glasses</th>
<th>plural noun</th>
</tr>
</thead>
<tbody>
<tr>
<td>a piece of equipment with two transparent parts that you wear in front of your eyes to help you see better: a pair of glasses</td>
<td>She was wearing glasses</td>
</tr>
</tbody>
</table>
4 Look up these words to see if they are plural nouns, then draw a circle around the correct verb form in the sentences.

1 Where is/are my shorts?
2 The computer graphics is/are very good.
3 The furniture has/have arrived.
4 My trousers is/are dirty.
5 I think maths is/are very boring.

Some nouns do not have a plural form and cannot be used with a or an. These nouns have [no plural] after the part of speech label:

knowledge /ˈnɒldʒ/ noun [no plural]
information and understanding that you have in your mind: His knowledge of history is amazing.

5 Look up the words that have a line under them. Are the sentences correct?

<table>
<thead>

An auxiliary verb is a verb that is used together with another verb to make a new tense or other grammatical form. For example, have in They have arrived and be in to be called are auxiliary verbs.

Phrasal verb

A phrasal verb is a verb that has two or three words. Together these words have a meaning that is different from each of the separate words. For example, count on and count up are phrasal verbs.

<table>
<thead>
<tr>
<th>count on someone</th>
<th>phrasal verb</th>
<th>count someone/something up</th>
<th>phrasal verb</th>

<tbody>
<tr>
<td>to be certain that you can depend on someone: I can always count on my parents to help me.</td>

Unit 4: The entry for the word

Definitions

The definition tells you what a word or phrase means. Many words and phrases have more than one meaning. Each different meaning has a number.

All the definitions in this dictionary use simple words. Words that are more difficult than usual are explained in brackets:

1 Look up the words in dark letters and answer these questions.

1 How many meanings does the verb light have?
2 What is the number of the meaning of light that is connected with being able to see?
3 How many meanings does the adjective bright have?
4 What is the number of the meaning of bright that is connected with being clever?
5 Look at the entry for present (noun). How many meanings does the phrase the present have?

2 What type of things are the dark words? Look the words up and complete the sentences with a word from the box.

   sport   tree   shoe   animal   food

1 A kangaroo is a type of
2 A lettuce is a type of
3 Boxing is a type of
4 A sandal is a type of
5 An oak is a type of

Phrases

A phrase is a group of words that are often used together and have a particular meaning. Phrases are shown in coloured letters.

In the entry for minute there are five meanings. Three of them are for phrases:

minute1 /ˈmɪnɪt/ noun
1 a period of time equal to 60 seconds: It’ll take you thirty minutes to get to the airport. – She was ten minutes late for her interview.
2 a very short period of time: I’ll be with you in a minute.
3 wait/just a minute used when asking someone to wait for a short time: Just a minute – I’ve left my coat in the restaurant.
4 at the last minute at the latest time possible: The concert was cancelled at the last minute.
5 (at) any minute very soon: Her train will be arriving any minute.
If there are brackets around part of a phrase, for example **(at) any minute**, it means that you can leave that part out. So you can say *Her train will arrive at any minute or Her train will arrive any minute.*

If there is a slash / in a phrase, for example **wait/just a minute**, it means that the phrase can be used with either the part before the slash or the part after the slash. So you can say *wait a minute or just a minute.*

Some phrases have **etc.** at the end of them. This means that you can use the phrase with one of the words in the list, or a similar word:

- **3** save files, work, etc. — to store work or information on a computer

Some phrases have … after the words. This means that the phrase is the start of a sentence and you can add words to the phrase to make a complete sentence:

- **3** would you like…? — used to offer someone something: *Would you like a drink?* "Would you like to eat now?"

If you are looking for a phrase in the dictionary, you will usually find it at the entry for the first important word in the phrase. For example, **take it easy** is found at the entry for **easy** (adverb).

**3 Look up these phrases. Where did you find them? Write the headword of the entry where you found the phrase.**

1. standard of living
2. lose your temper (with someone)
3. fold your arms
4. take the blame
5. look like
6. let someone know
7. for good
8. feel bad

**Example sentences**

Example sentences help you to understand a word and show you how to use the word.

Words that are often used together are shown in dark letters in examples:

*He has had a lot of bad luck in his life.*

Words that are more difficult than usual are explained in brackets:

*Did you take many pictures (= photograph many things) while you were in Sydney?*
4 Look at the example sentences at the entries for the words in dark letters. Use the example sentences to answer the questions.

1 What type of container do you drink tea from?
2 What verb is normally used with the noun shelter?
3 What prepositions are used with the verb reach?
4 What type of thing can you put in a stack?
5 What verb is used with money that means ‘to use money to buy things’?
6 What do you use with a needle to sew?
7 Write the correct word after need: I need ___ leave at five o’clock.

Pictures

The dictionary contains pictures to help you understand the meanings of words. There are colour pictures in the middle of the dictionary and black and white pictures at some entries. If there is a colour picture for the entry you are looking at, a note at the bottom of the entry will tell you to look at the colour picture:

sunglasses /'sʌŋ,ɡlɑːsiz/ plural noun
→ dark glasses that you wear to protect your eyes from the sun
→ See Clothes on page C5
Unit 5: More about the word

Formal and informal

The labels **informal** and **formal** tell you about how a word is used. **Informal** means that a word is used with people you know and is not usually used in serious writing.

<thead>
<tr>
<th>Word</th>

</tr>
</thead>
<tbody>
<tr>
<td>okay</td>

Words without a formal or informal label are used in general English.

1. Are these words formal, informal, or general? Use the dictionary to find out.

**British and American English**

Although English in the UK and English in the US are very similar, there are some differences in vocabulary and spelling.

This dictionary shows you when there are differences. The labels **UK** and **US** tell you if a word or a meaning of a word is used only in British English or only in American English. If the word you have looked up is used only in British English, and a different word is used in American English, this is shown:

<table>
<thead>
<tr>
